## FISK TIRE COMPANY HAS PHOENIX BRANCH

An Up-to-Date Agency and Service Station Established

At the corner of Central Avenue and Van Buren there is now being installed a most complete and up-to-date tire agency and service station. It is the new home of the Arizona branch of the big Fisk Rubber company and it is sure to become very well known to Arizona motorists, not only on account of the big stock of tires carried but the exceptionally convenient and satisfactory service offered. The big tire racks are nearly complete, they stand ceiling high and will accommodate hundreds of tires. Behind the tire sales department is the vulcanizing department in which the latest type of machinery is now being installed. Tire experts from the Fisk factory will be in charge here for Fisk people realize the importance of giving the best possible attention to injured casings, etc. A feature here is that one can drive his car right into the shop for a tire change so that the sometimes rather unpleasant job of changing a "37 by 5" tire under the cheerful summer sun will be no longer necessary.

N. M. Reid, recently manager of the Fisk store at Fresno, California, and for several years with the San Francisco branch of the Fisk company, arrived here yesterday and will be the permanent local manager of the local branch. The work of arranging for the local branch and the installation of its equipment has been in charge of J. R. Campbell, Pacific coast representative of the company, who from here will go to Portland, Oregon, to open another branch. He states that his company, which is one of the largest and most prosperous in the industry, is endeavoring to give the best of service throughout the country to its patrons, and that the Phoenix branch will be of great benefit to tire users throughout the state, not only on account of prompt shipment, but of quick adjustments, when such may be necessary.

## McDUFFEE WINS QUICK PROMOTION

Joseph H. McDuffee, veteran in the automobile field, has the distinction of having been manager of the first retail automobile showroom in America, and has been continuously in the automobile business ever since.

A few months ago he was chosen by John N. Willys to take charge of newly formed Willys-Knight Division of the Willys-Overland Company in the marketing of the new sleeve valve motor cars produced by that company. Now comes the news of his appointment as assistant sales manager of their entire organization.

As the present production of the Willys-Overland Company is soon to be six hundred cars a day, and their dealer organization has reached a four thousand mark, the appointment of Mr. McDuffee will come as a welcome aid to Sales Manager Harry B. Harper in the executive work incident to marketing this huge production.

Incidentally, it must bring some comparisons with the time when McDuffee's was the only shop on Broadway.

## COUNCILMAN TO ANSWER CHARGE

D. G. Buck of Tempe Arrested on Charge of Receiving Money from Town While Employed as Councilman

Charged with receiving money from the town for services rendered while acting as an official, Councilman D. G. Buck, of Tempe, was yesterday afternoon served with a warrant for arrest. Thos. E. Argue was the complainant. Mr. Buck has deferred any answer to the charge until Thursday morning of this week at ten o'clock when he will be given the opportunity to plead.

The charge against Councilman Buck is a new outgrowth that has come to light coincident with the antagonism that was stirred up recently between some of the citizens and the council when the marshal's dues were lessened, and incidentally his salary, and the manager appointed. The petition to the council that was presented, asking that the ordinance creating the position for the manager be repealed, never has been acted upon, inasmuch as it has been impossible so far to secure a quorum.

Councilman Buck is specifically charged with receiving money from the town of Tempe on the 11th day of March, this year. When the warrant was served yesterday afternoon he immediately appeared before Judge C. O. Austin and asked that he be given opportunity to consider the nature of the charge before making any answer. The request was granted and he will be arraigned next Thursday.

The punishment provided by the statute for the councilman or alderman receiving money from a town for any cause while serving as an official thereof, is immediate suspension from office and a fine of not less than \$100 and not more than \$300.

Naturally there is some interest attached to the contest this afternoon and Kyrene is going to go in full force when they journey to Gilbert where the battle will be staged.

"I mean exactly what I say. I am going to apply science to the detection of crime, the same sort of methods by which you trace out the presence of a chemical, or run an unknown germ to earth. And before I have gone far, I am going to enlist Walter Jameson as an aide."

"There is a distinct place for science in the detection of crime. On the Continent they are far in advance of us in that respect. We are mere children beside a dozen crime specialists in Paris, whom I could name."

"Colleges have gone a long way from the old ideal of pure culture. They have got down to solving the hard facts of life, pretty nearly all, except one. They still treat crime in the old way, study its statistics and pore over its causes and the theories of how it can be prevented. But as for running the criminal himself down, scientifically, relentlessly—bah! we haven't made an inch of progress since the hammer and tongs methods of your Byrnes."

—Statement of Prof. CRAIG KENNEDY.

NOTE.—Since publication of the above statement Prof. Craig Kennedy's achievements have won for him not only the thanks of millions of men who have adventure and mystery but the praise of such men as Thos. A. Edison, Detective Burns, Prof. Scherbert of the University of Pennsylvania, and hundreds of eminent men in all lines of business and professional life. These books are a mental tonic, intensely interesting yet instructive.
